

## 24 little hours

We all know life ain't known to be fair,  
One problem solved, next one's already there.  
Privileged thinking of a very bad day,  
Just remember Mama's words: It's gonna be okay.

Though I'm not quite sure,  
But let's just breathe  
No I'm not quite sure how,  
But let's just breathe.

It's just  
24 little hours  
A day you don't want to end  
24 little hours  
So enjoy every single moment  
24 little hours  
A day you keep asking why  
24 little hours  
Well they're gonna get by.  
24 little hours

Well, good night of sleep is calming the mind  
It changes the view and the view changes everything  
Be kind to yourself, to all the doubts that you  
Tomorrow is awaiting for you, it's gonna try to make you laugh.  
Though I'm not quite sure,  
But let's just breathe  
No I'm not quite sure how,  
But let's just breathe.

24 little hours  
A day you don't want to end  
24 little hours  
So enjoy every single moment  
24 little hours  
A day you keep asking why  
24 little hours  
Well they're gonna get by.  
24 little hours

It's just  
24 little hours

A day you don't want to end

24 little hours

Let's enjoy every single moment

24 little hours

A day you keep asking why

24 little hours

Well they're gonna get by.

24 little hours
